Projects

Flight Ticket Booking Website (MERN)

- I independently developed a flight ticket booking system for a specific airline using React.js, MongoDB, Express, and Node.js. The project features a custom user interface created with CSS, and it does not utilize Material UI. This experience allowed me to gain practical knowledge in full-stack web development and refine my skills in JavaScript, React.js, and database management. News Hosting Website (html,css,javascript)

- Designed and developed a responsive news website using HTML, CSS, and JavaScript. Integrated a RESTful API to fetch and display current news articles, implementing features like search functionality and category filters. Demonstrated proficiency in front-end development, responsive design, and API integration. Github- <https://github.com/ShibiDhurgaM/Newswebsite>

Personal-Portfolio Website (html,css,javascript)

- Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase projects, skills, and professional experience. Implemented responsive design principles for cross-device compatibility and utilized modern web development techniques to create an engaging user experience. Demonstrated proficiency in frnt-end web development and design. Hosted-<https://portfolio-jet-one-39.vercel.app/>
